Home Safety Tech Help Workshop

Location: First Responder Library, 102 Main St

Need help using emergency alert apps, smart smoke alarms, or home safety devices? First Responder staff and volunteers will walk residents through setup, notifications, and basic troubleshooting so they can get more value from the tools they already own.

Topics Covered

- Wireless smoke and CO alarm setup basics
- Emergency alerts on phones and tablets
- Digital preparedness checklists and contact lists
- Basic troubleshooting for home safety technology

Bring your device, charger, and any questions you want to work through on site.
